

Liberated Kobani Needs Our Support to rebuild now!

Liberation of the city of Kobani has sparked jubilee, joy and victory dance all across region from Turkish border to Sanadaj in Kurdistan of Iran and around the world. Women and men of Kobani have won the fight against the Islamic State in defense of their city, home and dignity.

This victory and people's support of this struggle around the world opens a new chapter in fight against dark forces of Islamic criminals; women of Kobani should become the role model in this struggle against reactionary Islamic forces in the region.

History of our struggle shows, when ever freedom and equality loving women and men struggle hand in hand, their humanitarian goals are met sooner than later.

We congratulate people of Kobani for this victory.

We hope, all who supported the defenders of Kobani against the Islamic State, will be determined to continue their support for rebuilding efforts of this ruined Islamic plagued city. Our real jubilee shall start after grand opening of rebuilt schools, daycares, hospitals and recreation areas, when we can hear children's laughter from every corner of the city of KOBANI.
